PROVEN TECHNOLOGY.  
LIFE-CHANGING RESULTS.

CoolSculpting® is a non-surgical contouring treatment that freezes stubborn fat, which then is naturally eliminated from your body. No needles, no special diet, no supplements, no surgery. And most

importantly, little to no downtime. It's safe, medically-cleared and effective.

Undeniable results in as  
little as one treatment

Intended only for distribution outside the United States.  
Results and patient experience may vary. Consult your physician.  
The CoolSculpting procedure for non-invasive fat layer reduction is available worldwide.

A revolutionary  
non-surgical treatment  
that eliminates stubborn fat

stubborn fat

## CAN YOU PINCH MORE THAN YOU WOULD LIKE TO?

We all have stubborn fat that just won't go away. CoolSculpting® can help you eliminate fat in problem areas without surgery and with little to no downtime.

## GET THE BODY YOU DESERVE THROUGH SCIENCE THAT WORKS.

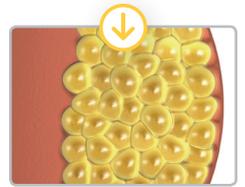

Developed by renowned Harvard University scientists, Dieter Manstein, MD, PhD, and R. Rox Anderson, MD, CoolSculpting technology was born of the observation that some children got dimples due to eating popsicles. That breakthrough was the insight behind Cryolipolysis, the proven science on which CoolSculpting is based. Cryolipolysis is exclusively licensed from Massachusetts General Hospital, a teaching affiliate of Harvard Medical School.

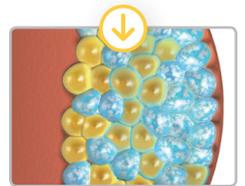

## COOLSCULPTING – HERE'S HOW IT WORKS:

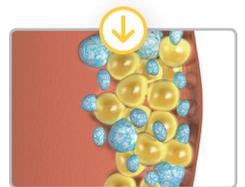

Many of us have bulges of stubborn fat.

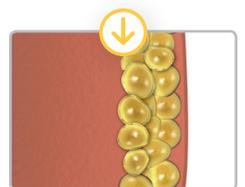

Those unwanted bulges contain fat cells, which can be resistant to diet and exercise.

CoolSculpting uses controlled cooling to target and crystallize fat cells.

Crystallized fat cells gradually die, and are naturally eliminated from your body.

In the weeks and months following treatment, the remaining fat cells condense, reducing the fat layer.

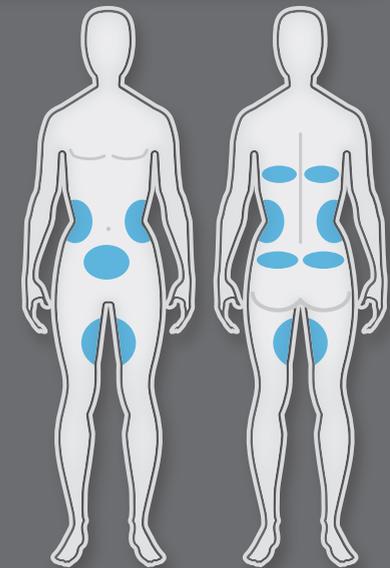

CoolSculpting lets you say goodbye to stubborn fat, without surgery.

CoolSculpting works on stubborn fat in your **problem areas**.

WHERE WOULD YOU LIKE TO CHANGE YOUR BODY?

- » Flanks
- » Stomach
- » Upper back
- » Lower back
- » Inner thighs
